Microfinance Is Retail Banking for Low-Income Households

Credit

Working Capital

Savings

Insurance

A Full Range of Financial Services for the Poor

- Microfinance offers low-income individuals access to basic financial services such as loans, savings, money transfer services, and insurance. Traditionally, banks have not considered low-income individuals to be a viable market.
- The basic working units of the industry are the Microfinance Institutions (MFIs). These diverse organizations - sometimes formed as commercial banks, non-bank financial institutions, rural banks, non-governmental organizations (NGOs) or cooperatives – offer a variety of locally-based financial services to poor populations.
- There are an estimated 10,000 MFIs worldwide, most of them very small, serving around 180 mn low-income individuals, which represents a total volume in loan terms of more than USD 65 bn
- MFI clients are typically self-employed, often women, and operate small businesses or household-based enterprises

Microfinance Institutions Provide a Variety of Financial Services to Low-Income Households

Description

- MFIs offer low-income individuals financial services and in certain cases other services, like business training
- MFIs started as NGOs or state-owned development banks and today the large majority are still non-profit entities. However, an increasing number of MFIs is being organized as for-profit entities like non-bank financial institutions (NBFIs), commercial banks that specialize in microfinance, or microfinance departments of full-service banks.
- MFIs have intimate knowledge of the sector in which they operate and develop specific delivery channels to ensure proximity, e.g. by using sophisticated IT solutions to reach the masses (ATMs, mobile phones, etc.)
- MFIs get funding from diverse actors, like development banks, donors, local banks, and international investors

Business Model

- Focus on low-income households
- Diverse legal set-up
- Full range of financial services
- Unique credit methodology
- Strong asset quality
- High operating cost ratio
- High net interest rate margins
- drive profitability

Credit Suisse/11-006662 October 2011 7/39

Microfinance Clients Are Microentrepreneurs and Small Businesses

8/32

Microfinance clients are mostly self-employed microentrepreneurs and small businesses

- Underserved by mainstream financial system
- Large population of women

Microfinance clients are in need of financial services and are solvent

- Need typically a USD 500-6,000 loan for an average term of 12 months
- Need other services, including savings, insurance, and money transfer
- 97% of microfinance clients pay back on time

■ Microfinance clients experience very low default rates

- MFIs have a very close relationship with their clients due to regular visits to their premises, allowing the MFIs to monitor client businesses closely and react quickly to potential problems
- Loans are made to finance working capital and are based on local credit assessments
- First-time borrowers usually receiving counseling
- Lack of access by the clients to other credit sources drives high repayment rate

Credit Suisse/11-006662 October 2011

Profile of a Borrower

Phi Phi, mother of four, village in Cambodia

Profile of a borrower

History:

- Difficult carpentry business
- Start new business, shift to sugar production

First loan: USD 13

Purpose:

- Purchase a few sacks of fertilizer
- Some bamboo for ladders

Result:

More palm sugar per day

Twelfth loan: USD 65

Result:

- One more plot of land
- One son in university

Lender: AMRET, an MFI in Cambodia

Funding: Microfinance Fund

A standard microloan

- Small size (USD 50-2000)
- No collateral
- Frequent payments (weekly)
- High interest rates
- Short to medium-term

Microfinance Capacity Building Initiative at Credit Suisse

Why capacity building?

- Microfinance sector has seen exponential growth.
- Despite access to abundant capital and continued demand, human and institutional capacity of the sector has not been able to keep up.
- The Microfinance Capacity Building Initiative (MCBI) is funded through Credit Suisse Philanthropy and complements the long-term business engagement in the sector and leverages our expertise. It was established in 2007 and is managed by Corporate Citizenship.

What is MCBI's mission? To enable MFIs to develop the people, processes, and products they

need to meet their social and financial goals:

- Contribute to the quality training of thousands of staff at microfinance institutions (MFIs)
- Foster research, innovation, and constructive dialogue to spread best practices
- Improve financial services for numerous poor individuals
- Engage Credit Suisse employees

Credit Suisse/11-006662 October 2011 26/32

Through Its Work, the MCBI Gains Unique Insight into Partner Organizations

ACCION International	 Founding partner of the Center for Financial Inclusion (CFI), a unique "solutions lab" for the industry, including the Smart Campaign, the leading industry initiative on consumer protection Premier partner of the global training centers in India, China, Brazil, and Ghana to provide staff training on credit methodology, management, and best practices, among other topics
FINCA International	 Premier partner of FINCA Development Academy, an in-house professional training center for thousands of FINCA's global employees Supporter of FINCA's market intelligence and social performance initiative to better understand and serve client needs
Opportunity International	 Premier partner of "Electronic Wallet" program in Ghana, Rwanda, Malawi, and Colombia which provides new access for low-income customers for financial services (ATM machines, SmartCards, mobile banks, etc.) Partner in NextGen Banker staff training and development programs
PlaNet Finance	 Partner of the microfinance risk management and robustness program in China to develop staff risk management capabilities and diversify funding opportunities
Swisscontact	 Partner of the microleasing development initiative in East Africa Supporter of Youth Entrepreneurship program in South Africa
Women's World Banking	■ Partner of research and innovation in the development and delivery of women-focused microfinance services and supporting and expanding the capacity of WWB's network members to develop, incubate, and scale innovative women-focused financial products and services
Microfinance Communications Council	Credit Suisse is founder of the MCC, bringing together leading US microfinance networks to communicate effectively and with unity about the industry and current issues
Swiss Capacity Building Facility	 Credit Suisse is a founding partner of SCBF, a public-private partnership between the Swiss government and private sector to strengthen MFIs and facilitate social investment in them

27/32 Credit Suisse/11-006662 October 2011

Conclusion

Microfinance at Credit Suisse

- An innovative investment opportunity generating both a financial return and a positive social impact
- A portfolio-diversifying alternative investment with a history of continued positive returns
- An opportunity to contribute to the enhancement and responsible development of innovative solutions for social change at the Base of the Economic Pyramid (the BOP)
- Credit Suisse is a trusted partner with an extensive experience and solid expertise in the microfinance value chain aimed at linking the TOP with the BOP

Every investment involves risk, especially with regard to fluctuations in value and return. Investments in foreign currencies involve the additional risk that the foreign currency might lose value against the investor's reference currency. Historical performance indications and financial market scenarios are no guarantee for current or future performance. Performance indications do not consider commissions levied at subscription and/or redemption. Furthermore, no guarantee can be given that the performance of

The responsAbility Global Microfinance Fund (hereinafter "the Fund") is an investment fund in Luxembourg pursuant to Part II of the Luxembourg law on undertakings for collective investment and approved for sale in Switzerland as a foreign collective investment scheme with special risks.

The Fund invests in securities that are financed or refinanced by financial service companies in less developed countries. Investors are expressly made aware of the risks outlined in the prospectus and of the reduced liquidity of the Fund's investments and the increased difficulty of valuing them, as they are often not listed or traded; investors must therefore be willing to accept substantial risks, including total loss. The risks of the Fund are not comparable to those of other funds investing in debt obligations of issuers in developed countries. Consequently, Fund units should only account for a small part of an investor's portfolio, and held as part of a diversified portfolio. The management company and the investment advisor endeavor, however, to minimize these risks through a strict selection of the securities purchased and adequate risk diversification.

The representative in Switzerland is Credit Suisse Funds AG, Zurich. The paying agent in Switzerland is Credit Suisse AG, Zurich. Subscriptions are only valid on the basis of the current sales prospectus, the contractual terms and conditions, and the most recent annual report (or semi-annual report, if more recent). The sales prospectus, the contractual terms and conditions, and the annual and semi-annual reports are available free of charge from Credit Suisse Funds AG, Zurich, and from all Credit Suisse AG banks in Switzerland.

ResponsAbility SICAV (Lux), responsAbility BOP investments S.C.A. SICAR, IC Asia Women Microfinance Fund, and Azure Global Microfinance Fund are considered foreign investment schemes pursuant to Art. 119 of the Swiss Federal Collective Investment Schemes Act (CISA). No application has been submitted to the Federal Financial Market Supervisory Authority (FINMA) to obtain approval within the meaning of Art. 120 CISA to publicly advertise, offer or distribute the investments in or from Switzerland, and no other steps have been taken in this direction. As a result, the investments are not registered with FINMA. Consequently, investors do not benefit from the specific investor protection and/or FINMA supervision pursuant to the CISA and its implementing ordinances. Any offer or sale must therefore be in strict compliance with Swiss law, and in particular with the provisions of the Collective Investment Schemes Act and its implementing ordinances, and FINMA circular 2008/8 on public solicitation. Pursuant to the Collective Investment Schemes Act and its implementing ordinances, the units may not be offered, marketed or distributed to the public in or from Switzerland, but only to qualified investors.

CREDIT SUISSE Credit Suisse/11-006662 October 2011 31/32

Structured Derivatives

This document is not a simplified prospectus as stated in Art. 5 of the Swiss Federal Act on Collective Investment Schemes (CISA). This investment product does not constitute a participation in a collective investment scheme. Therefore, it is not supervised by the Swiss Financial Market Supervisory Authority (FINMA) and the investor does not benefit from the specific investor protection provided under the Federal Act on Collective Investment Schemes. The investment instrument's retention of value is dependent not only on the development of the value of the underlying asset, but also on the creditworthiness of the issuer (issuer risk), which may change over the term of the structured product.

This investment product is a complex structured derivative and involves a high degree of risk. It is intended only for investors who understand and are capable of assuming all risks involved. Before entering into any transaction, an investor should determine if this product suits his or her particular circumstances and should independently assess (with his or her professional advisors) the specific risks (maximum loss, currency risks, etc.) and the legal, regulatory, credit, tax, and accounting consequences. The issuer makes no representation as to the suitability or appropriateness of this investment product for any particular investor nor as to the future performance of this investment product. Historical data on the performance of the investment product or the underlying assets is no indication for future performance. No representation or warranty is made that any indicative performance or return indicated will be achieved in the future.

Where not explicitly otherwise stated, the issuer has no duty to invest in the underlying assets and investors have no recourse to the underlying assets or to any payouts of the underlying assets. The price of the investment product will reflect the customary fees and costs charged on the level of the underlying assets (e.g. index calculation fees, management fees, administration fees). Certain built-in costs are likely to adversely affect the value of the investment product prior to maturity.
